Product Designer

Job description

We are looking for an innovative Product Designer to join our team. Must be a leader championing good design and thoughtful user experience. You will play a key role in creating scalable, easy-to-use products that truly connect with our clients while standing out from the competition. Our ideal candidate has a deep understanding of how to frame a problem and work with the team to synthesize new solutions.

- Synthesize broad concepts and ideas into engaging and impactful experiences.
- Provide innovative design solutions for new and existing products
- Sketch, model, and create prototypes
- Collaborate with fellow designers and engineers to turn ideas into functional products.
- Lead bench and user testing sessions and collect data to make more informed design decisions.
- Learn from customer usage and leverage feedback and data to continually iterate, innovate, and evolve the product.
- Work closely with product market researcher to identify and define product opportunities and contribute to the overall product strategy.
- Communicate your thoughts and decisions effectively to engineers and team members
- 3D model and create photorealistic renderings of developed product
- Great concept sketching and ideation skills
- Generate quote estimations based on quoted parts and projects
- Experience with 3D product modeling design and 2D layout design
- Hand drafting and renewing is a plus
- Proficient in CAD, SolidWorks and other 3D modeling programs
- Desire to work in a fast-paced startup environment
- Excellent critical thinking, sound judgment, and effective decision-making ability
- Excellent written and verbal communication skills.

Requirement

We are looking for candidates who can work independently and without instruction. Applicants should be in their junior or senior year, or a recent grad. We are flexible with school schedules and are looking for a candidate who can work onsite 2-4 days a week.

Interested Applicants: Please send resumes and work samples to info@designsbywhite.com. Please write "Internship - [Position Name]" as the subject line and label your resume and/or work sample pdf with first initial and last name. Resumes without work samples or a portfolio will not be considered.
